

FIRST RESPONDER INITIAL CERTIFICATION/LICENSURE OR RE-LICENSING PRACTICAL EVALUATION

3.9 Burn Injury

Key Performance Outcomes

- Burn injury management

Patient Instructions

C/C:	"I've burned my left arm"
HxC/C:	You accidentally knocked a saucepan full of boiling water off the range, splashing water down your left arm.
Pain Assessment (PQRST)	Burning pain down my left arm and into my hand, does not radiate, 9/10 for severity, and it happened approximately 15minutes ago.
Relevant symptoms:	Blistering to the back of the lower arm and hand
Relevant past Med Hx:	Juvenile arthritis
Medications:	Extra strength Tylenol
Allergies:	Peanuts
Other:	You are portraying a 13 year old child

Scenario Information

Dispatch Information

Dispatched to a residence for a burn injury.

Scene Information

You are met at the door by a distraught mother who takes you to the kitchen. She tells you her 13 year old daughter accidentally spilled boiling water on herself while making pasta. You find the girl standing at the sink with her left arm under running water. You notice obvious blisters beginning to form along the back of the lower arm and hand

Witnessed or Secondary Information (as required)

Criteria	Relevant findings		Required actions	
RSE	Safe		Ensure range is shut off and the saucepan won't cause further problems	
LOC	Alert but in obvious pain			
D	None			
A	Clear and open
