

## FIRST RESPONDER INITIAL CERTIFICATION/LICENSURE OR RE-LICENSING PRACTICAL EVALUATION

### 3.15 Carbon Monoxide Poisoning

#### Key Performance Outcomes

- Manage a patient with carbon monoxide poisoning

#### Patient Instructions

C/C:	"I have a bad headache and I feel nauseous"
HxC/C:	Your next door neighbour came over to see why you were running your generator in your attached garage. He found you in your house confused and complaining of a headache and nausea.
Pain Assessment (PQRST)	Headache, dull throbbing, does not radiate, 3/10 for severity, you can't remember when it started
Relevant symptoms:	You feel nauseated and fatigued
Relevant past Med Hx:	None
Medications:	You think you have taken some Tylenol for your headache
Allergies:	Shellfish
Other:	You are portraying someone in their 40's

## Scenario Information

### Dispatch Information

Dispatched to a residence for a sick person

### Scene Information

You are met at the front door by the neighbor who tells you he came over to see why his neighbor (the patient) was running his generator in his attached garage. He states he found his neighbor very confused and not himself so he called for help. You can still hear the generator running in the garage. You are told the patient is sitting in the kitchen.

### Witnessed or Secondary Information (as required)

As you approach the patient, you see a man who appears to be in his 40's sitting at the kitchen table.

Criteria	Relevant findings	Required actions
